How to check you've received my order

Wilfred - 2019-11-20 - in [How to check you've received my order](#)

You will receive an email from us confirming the placement of your order. If not, please check your spam folder.

When an order has been placed successfully, it will show up in your [order history](#). The order status will be updated accordingly.

However, there is no confirmation when using the '**Anonymous Checkout**' - as it is anonymous.
