My order did not arrive completely

Raoul - 2017-04-07 - in Order

Don't worry yet, the rest of your order is still on it's way and should be there soon! It is possible we shipped your orders in multiple, separate packages, this is usually done with large orders and growth solutions.

If you have waited more than 4 weeks and it still hasn't found it's way to your door steps, then it might have been lost in the void. Please contact our support team regarding your order.
