Paper money (Cash) checkout instructions

Wilfred - 2019-11-20 - in Paper money (Cash) instructions

Make sure your money cannot be detected by hiding it in for example a greeting card. Only add paper money as coins are easily detected and we want to avoid that your payment gets stolen on the way. Accepted currencies can be found in the table below. Please note: sending cash is at your own risk.

Orders placed with the Paper Money payment method receive a **5% discount**

Instructions in 3 steps:

Hide the **total amount of your order** in a greeting card, so that it will not get detected easily (paper money only)

1. Add your order number, so that we can match your payment to your order. The order number consists of 8 numbers, starting with **#33...**
2. Put the card with the cash in an envelope and seal it. Write the following address on the envelope:

Themis

Munterslaan 4a

2014 KW Haarlem

The Netherlands

3. Write **your own address** on the envelope, so that your letter can be returned in case something goes wrong.

Of course you can send your letter by putting stamps on it and post it but the safest way is to use registered mail or by a courier service such as DHL, FedEx and UPS.

Your order will be processed as soon as your payment is received.

Accepted paper money currencies:

\$US Dollar

€ EURO

zł Zloty

£ Pound Sterling

\$C CANADEAN Dollar
